FOOD CONTROL

Index to Volume 7 (1996)

Number 1 pp. 1–58
Number 2 pp. 59–114
Number 3 pp. 115–178
Number 4/5 pp. 179–260
Number 6 pp. 261–332

Article index

Number 1

The validation of rapid methods in food microbiology
D. L. Archer 1

Microbiological analysis of foods in France: standardized methods and validated methods
B. Lombard, C. Gomy and M. Catteau 5

The International Dairy Federation's procedure for the validation of microbiological analytical methods for dairy foods
A. D. Hitchins 13

Validation of modern methods in food microbiology by AOAC INTERNATIONAL collaborative study
W. H. Andrews 19

MicroVal, a challenging Eureka project
I. M. F. Rentenaar 31

The US Food and Drug Administration's selection and validation of tests for foodborne microbes and microbial toxins
G. J. Jackson and I. K. Wachsmuth 37

Microbiological methods – the Australian perspective
G. H. Fleet 41

Validation and acceptance of modern methods for the microbiological analysis of foods in the UK
S. Scotter and R. Wood 47

Guidelines for method validation techniques used in the microbiological examination of food samples
C. B. Struijk 53

Number 2

Bad bugs and good bugs: the changing perceptions
D. L. Archer 61

Effect of diacetyl on growth rate of *Salmonella typhimurium* determined from detection times measured in a micro-well plate photometer
M. H. Archer, V. M. Dillon, G. Campbell-Platt and J. D. Owens 63

Overview of the risk analysis approach and terminology: the merging of science, judgment and values
T. E. McKone 69

Importance of HACCP for public health and development. The role of the World Health Organization
Y. Motarjemi, F. Käferstein, G. Moy, S. Miyagawa and K. Miyagishima 77

A review of the safety of cold pasteurization through irradiation
L. M. Crawford and E. H. Ruff 87

Number 3

Measurement of the olfactive intensity of chocolates by differential olfactometry
B. Plumas, L. Hashim and H. Chaveron 117

Use of response surface models to predict bacterial growth from time/temperature histories
S. M. Avery, J. A. Hudson and D. M. Phillips 121

Cowpea inhibition of human and bovine protease activities and the effects of processing
C. A. Nti and W. A. Plahar 129

Occurrence of *Listeria monocytogenes, Salmonella* spp. *Escherichia coli* and *E. coli* O157:H7 in vegetable salads
C.-M. Lin, S. Y. Fernando and C. Wei 135

Evaluation of in-line sensors for prediction of soluble and total solids/moisture in continuous processing of fruit juices
P. C. Singh, S. Bhamidipati, R. K. Singh, R. S. Smith and P. E. Nelson 141

Preservation of raw milk by activation of the natural lactoperoxidase systems
M. S. Haddadin, S. A. Ibrahim and R. K. Robinson 149

Moisture sorption isotherms of dawadawa, a fermented African locust bean (*Parkia biglobosa* Jacq. Benth)
P. A. Sopade, E. S. Ajisegiri and A. B. Abass 153

Changes in free amino acid concentration during stabilization and aging of wines derived from garnacha and viura musts clarified by static sedimentation
B. Ayestarán, C. Ancín, M. Corroza and J. Garrido 157

Presumptive identification of sulphonamide and antibiotic residues in milk by microbial inhibitor tests
P. Aureli, A. M. Ferrini and V. Mannoni 165

Presence of *Escherichia coli, Klebsiella pneumoniae* and *Enterobacter* species in dried bush okra (*Corchorus olitorius*) and African spider herb (*Cleome gynandra*)
S. F. Mpuchane and B. A. Gashe 169

Number 4/5

Listeria monocytogenes: the science and policy
D. L. Archer 181

Overview of listeriosis
W. F. Schlech 183

Risk factors for listeriosis
J. Rocourt 195

Sampling plans for *Listeria monocytogenes*
M. Van Schothorst 203

Prevalence of *Listeria* spp. in meat and poultry products
J. M. Jay 209

Prevalence of *Listeria monocytogenes* in foods: incidence in dairy products
J. Kozak, T. Balmer, R. Byrne and K. Fisher 215

Listeria monocytogenes: incidence on vegetables
L. R. Beuchat 223

US position on *Listeria monocytogenes* in foods
F. R. Shank, E. L. Elliot, I. Kaye Wachsmuth and M. E. Losikoff 230

The role of the Public Health Laboratory Service in England and Wales in the investigation of human listeriosis during the 1980s and 1990s
J. McLauchlin 235

Listeria monocytogenes in foods: the French position International Food Safety Conference. Listeria: the state of the Science – 29–30 June 1995 – Rome, Italy

C. Lahellec 241
Listeria: the state of the science Rome 29–30 June 1995 Session IV: country and organizational postures on *Listeria monocytogenes* in food
Listeria: UK government's approach
R. Skinner 245
The Canadian position on *Listeria monocytogenes* in ready-to-eat foods
J. M. Farber and J. Harwig 253

Number 6

HACCP-based food quality control and rapid detection methods for microorganisms
L. Vanne, M. Karwoski, S. Karppinen and A.-M. Sjöberg 263
Nucleotide degradation and quality changes in mullet (*Liza corsula*) and pearlspot (*Etroplus suratensis*) in ice and at ambient temperatures
P. T. Lakshmanan, P. D. Antony and K. Gopakumar 277
Nutrition labelling of foods: comparisons between US regulations and Codex guidelines
C. J. Lewis, A. Randell and F. E. Scarbrough 285
Comparison of crabmeat protein patterns by isoelectric focusing
V. Gangar, T. S. Huang and C. I. Wei 295
Automated control of high temperature short time pasteurization
A. Negiz, A. Cinar, J. E. Schlesser, P. Ramanauskas, D. J. Armstrong and W. Stroup 309
Influence of conditions of manufacture and storage time on the textural characteristics of Xixona turrón
N. Martínez-Navarrete, P. Fito and A. Chiralt 317
